

Dear Parents/Carers

Design and Technology at the Wellington Academy

Design and Technology plays an important role in the overall education of all students' at the Academy. The equipment and materials provided for students' help to ensure that the best quality education can be offered to each and every student.

As a result of rising costs of materials, equipment and ingredients the Design and Technology department are asking for help from the families of students for the school academic year from September 2016 to July 2017. A contribution would assist in covering the basic cost of the materials and ingredients required by your child in Catering and Hospitality (KS4) and Food Technology (KS3).

In Key Stage 3, students will rotate through subject areas and **£1.00** will be required per student **every** practical session.

In Key stage 4, students cook throughout the whole year and will be calculated termly based on **£1.00** each practical session.

Money can be paid by parent pay and will be calculated based on how many practical lessons your child will be allocated to cooking in each term.

Thank you for your continued support of the Design and Technology department.

Yours faithfully

Mrs R Tuliva
Senior Curriculum Director for Creation and Performance
